

GOODBYE IFAT 2022!

Categories: JOEST,Recycling

Published June 14,2022

We are looking back on a successful exhibition and informative days and would like to thank all of our visitors. We were able to have many interesting meetings and discussions, made a lot of new contacts and could present our Flip-Flow Screens of the new OSCILLA Family and the new J-Flow Air Separator very successfully.

A great success overall! Thanks to the organization and the great #JOESTeam. We are already looking forward to the next IFAT in 2024!
